# ALEAS Board Release Note

## INTELLIFRAME UPGRADES & WORKFLOW IMPROVEMENTS

Dear ALEAS Board user,

We're excited to announce that a new ALEAS Board release is scheduled for April 2026 – bringing a range of improvements to IntelliFrames and several new features designed to make your planning, alignment, and daily workflow even smoother and more efficient.

### What's included in the new release:

- **IntelliFrame Auto-Snapping** helps you align sticky notes precisely by automatically snapping them into place, making board organization faster and more intuitive.
- **Work Radar** now supports fully editable sticky notes, with all changes automatically synchronized for a seamless planning experience.
- **Calendar Week Alignment** allows you to quickly move sticky notes to the correct calendar week in your Sprint & Masterplan when the date and position do not match.
- **The new Backlog Column** in Sprint & Masterplan IntelliFrames enables better planning by collecting items in a dedicated backlog that is also reflected in the Work Radar.
- **The Excel Export** now includes calendar week data, giving you full transparency on sticky note positioning across your planning boards.
- **Automatic Backups** ensure your board is safely saved every week when enabled.
- **Plus several smaller improvements** to make your workflow even smoother.

Many of these improvements are the result of your feedback. Thank you for your continued support and inspiration. We can't wait for you to try the new features!

As always, we appreciate your ideas and suggestions.  
Please reach out to us anytime at [support@aleas.li](mailto:support@aleas.li).

All the best,  
your ALEAS Team

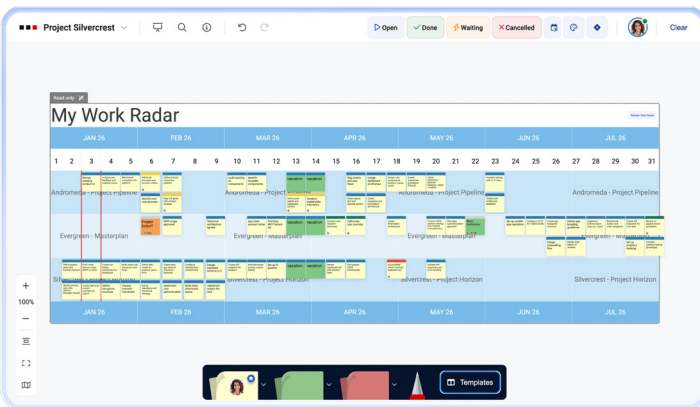

# IntelliFrame Improvements

ALEAS BOARD RELEASE #2026-04

## Sticky Auto-Snapping

A new auto-snapping option is available for all IntelliFrames. It can be enabled individually for each template in the IntelliFrame Editor and helps align sticky notes, making it easier to position them precisely.

## Work Radar: Editable Stickies

Sticky notes in the Work Radar are now fully editable, allowing you to update them directly in the Work Radar with all changes automatically synchronized in real time.

### STAGILE® Management Sprint & Masterplan

Sprint

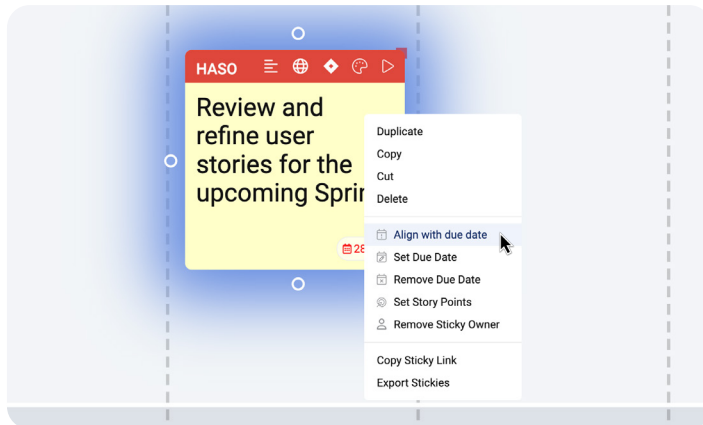

Backlog	CW 1	CW 2	CW 3	CW 4
	30.Dez 5.Jan	6.Jan 12.Jan	13.Jan 19.Jan	20.Jan 26.Jan
Synch, Key Dates, Milestones	Synch, Key Dates, Milestones		Synch, Key Dates, Milestones	
Absences	Absences		Absences	
Communication	Communication		Communication	
Customers & Stakeholders	Customers & Stakeholders		Customers & Stakeholders	
Strategic Initiative 1	Strategic Initiative 1		Strategic Initiative 1	
Strategic Initiative 2	Strategic Initiative 2		Strategic Initiative 2	
Strategic Initiative 3	Strategic Initiative 3		Strategic Initiative 3	

## Backlog Column

A new backlog column has been added to the Sprint & Masterplan IntelliFrame. Sticky notes placed in this column will also automatically be displayed in the Work Radar.

# IntelliFrame Improvements

ALEAS BOARD RELEASE #2026-04

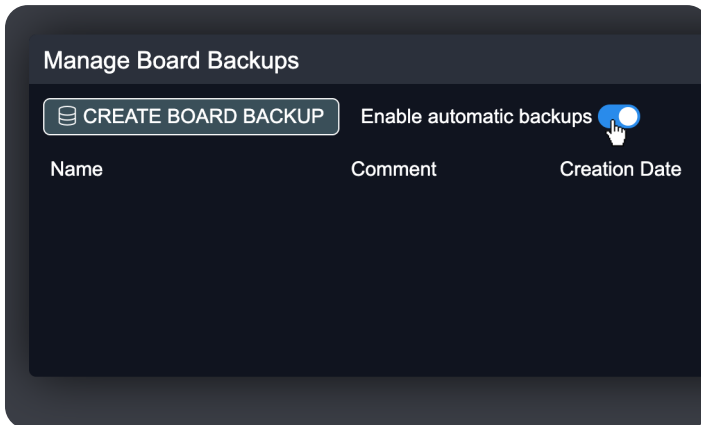

## Calendar Week Alignment

Sticky notes can be moved to the correct calendar week with just two clicks if the date does not match the week where the sticky is currently placed.

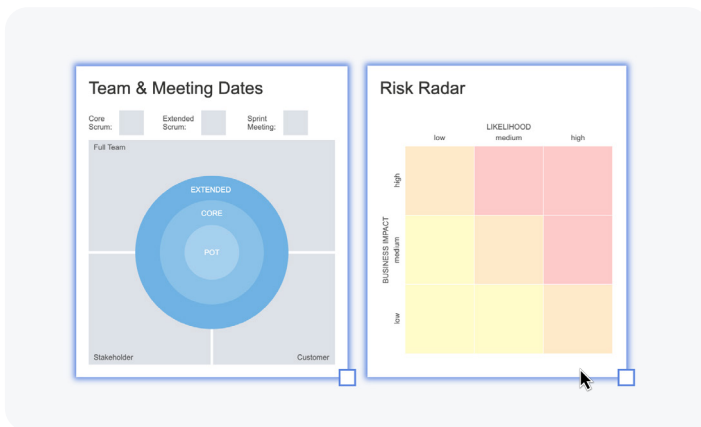

# Other Improvements

ALEAS BOARD RELEASE #2026-04

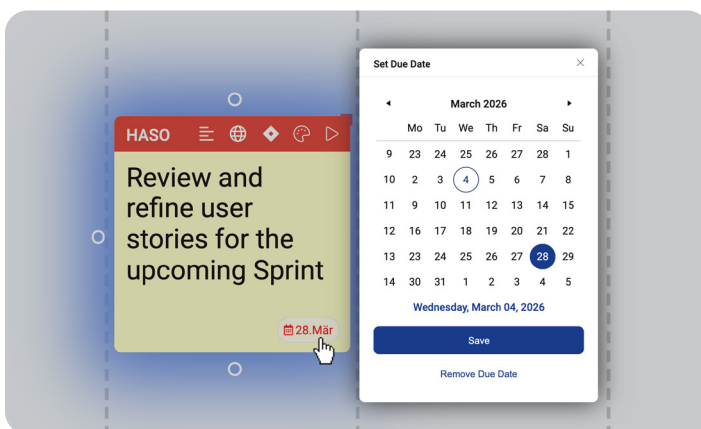

## Automatic Backups

You can enable automatic backups in the backup settings. When activated, your board will be backed up automatically once every week.

## Template Multi-Select

You can now select and move multiple templates at once.

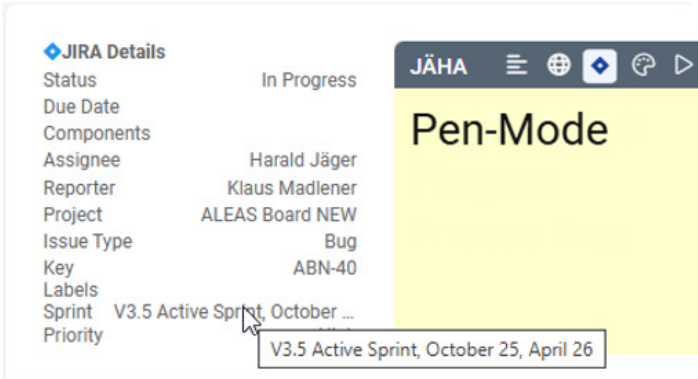

## Quick Due Date Editing

You can now click the due date on a sticky note to open the calendar menu directly, without navigating through the context menu.

## Sticky Position in Excel Export

The Excel export now includes a calendar week column, allowing you to see the exact position of each sticky note in the Sprint & Masterplan IntelliFrame (calendar week and year).

# New Templates

ALEAS BOARD RELEASE #2026-04

## KISS Retrospective

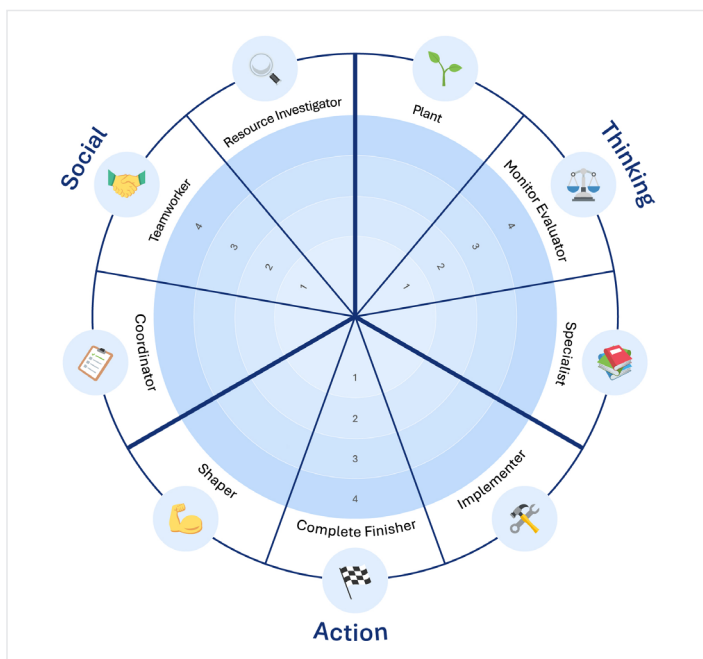

The KISS Retrospective helps teams reflect on their work in a simple and structured way by focusing on what to Keep, Improve, Start, and Stop. It encourages open discussion, highlights successes and areas for improvement, and supports continuous team development through clear and actionable insights.

**Competence Maturity Level**

80-100%	<b>EXEMPLARY</b> role-model level, strong benchmark for others
60-80%	<b>STRONG</b> high performing
40-60%	<b>SOLID</b> functioning well with some growth opportunities
20-40%	<b>GAPS</b> clear potential, should be addressed proactively
0-20%	<b>CRITICAL</b> requires immediate attention and focused development

## Competence Maturity Level

The Competence Maturity model helps assess and develop individual or team capabilities in a structured way. It provides a clear framework to evaluate current skill levels, identify gaps, and define targeted actions for continuous growth and professional development.

## Belbin Team Roles

The Belbin Team Roles model helps teams understand individual strengths and behavioral contributions within a group. It identifies different role types, such as coordinators, implementers, and innovators, and supports more effective collaboration by ensuring balanced team composition and clearer role awareness.
